

# Project Manager for External Mobilisation of New O&M Contract at Metroselskabet

**Deadline:**  
05-10-2025

**Contact person:**  
Rune Jon Jensen

**Position type:**  
Fuldtid

## Can you lead operator mobilisation in a technically and contractually complex setup?

Metroselskabet has recently tendered its upcoming Operations & Maintenance (O&M) contract, with the expected start in September 2027. The new contract covers the full scope of metro operations and maintenance — a critical public service with significant financial value, complexity, and high visibility.

We are therefore looking for a Project Manager to lead the three phases of external mobilisation:

- Closure of the current contract period
- Transition between contract periods
- Start-up of the new contract period

This will involve a high degree of coordination between Metroselskabet and external suppliers.

## About the Position

You will be employed in the Operation & Maintenance department and will take overall responsibility for the external mobilisation.

It is essential to ensure a well-coordinated transition between contract periods — including systems, data, and operational responsibilities. The mobilisation requires close coordination, clear agreements, and trust-based collaboration to ensure the incoming supplier is well positioned to take over from day one.

Your tasks will include:

- Project management of the external mobilisation effort
- Developing a joint mobilisation plan, target picture, and deliverables in collaboration with the steering committee
- Ensuring progress on agreed deliverables
- Identifying and mitigating business risks
- Planning and transferring systems, assets, and knowledge
- Establishing and maintaining constructive stakeholder relations
- Close collaboration with contract lawyers and technical specialists at Metroselskabet

The External Mobilisation Project Manager will work closely with a counterpart responsible for internal mobilisation, which you can find [here](#).

## Your Profile

We are looking for a project manager who:

- Has several years of experience facilitating complex transitions
- Possesses a strong understanding of commercial and technical interfaces
- Can deliver clear and credible communication — both internally and externally
- Has a proven ability to create structure and drive progress in complex processes
- Is independent and systematic

Experience with outsourcing, contract transitions, or mobilisation in technically complex environments is an advantage.

## Practical Information

Application deadline: October 5th 2025

If you have any questions or would like to know more about the position, you are welcome to contact Team Manager Rune Jon Jensen at [rjje@m.dk](mailto:rjje@m.dk)
