

Facility Manager

Metroselskabet operates and develops the metro and light rail systems in the Greater Copenhagen Area. We are committed to delivering safe, innovative, and sustainable public transport solutions that keep the city moving.

As a Facility Manager, you will oversee the maintenance planning and performance of cleaning and architectural elements across our metro system.

You will be working closely with our Operations & Maintenance (O&M) suppliers, contributing to both the quality and visual integrity of our public spaces. You'll collaborate with contract management, follow up on maintenance performance through inspections and quality assurance within a broad infrastructure portfolio.

Your Responsibilities

- Collaborate with O&M suppliers to ensure our assets are clean, well-maintained, and graffiti-free
- Conduct inspections of the O&M supplier's activities to assess and improve preventive actions to uphold, cleanliness, and visual appearance
- Coordinate with internal teams to ensure cleaning and infrastructure supports overall system reliability, safety, and customer satisfaction

About You

You are a hands-on, quality-focused professional who understands the impact of physical surroundings on public perception. You're experienced in working with external suppliers and can manage day to day activities while keeping long-term cleaning and infrastructure goals in mind.

Your Qualifications

- Degree in Facility Management, or a relevant technical background - **OR** equivalent long professional experience
- Experience with infrastructure maintenance, building systems, cleaning services, or public space upkeep
- Solid understanding of contract management and supplier collaboration, ideally within a performance-based framework
- Familiarity with cleaning standards, graffiti removal techniques and public space maintenance is a strong advantage
- Strong communication skills in English (Danish is a plus)
- Knowledge of relevant work and environmental standards

What We Offer

- A pivotal role in maintaining and improving one of Europe's most advanced public transport infrastructures
- A collaborative and diverse work environment that values professionalism, integrity, and innovation
- Opportunities to contribute to visible, meaningful change in the urban landscape

"In our dynamic maintenance team, you'll collaborate with skilled, supportive colleagues and grow your expertise while making an impact on the city's transportation system."

– Valentin, Maintenance Supervisor

Ready to Make a Difference?

Apply now and help ensure the cleanliness, and reliability of Copenhagen's metro infrastructure.

If you have any questions, please contact Allan Claville +4572424604.

The application deadline is June 25, but we will be conducting interviews on an ongoing basis and reserve the right to close the recruitment process once the right candidate has been found.
